

YIP — YUVA Volunteer Quick Card

Young Indians Parliament • Chapter Round

Your phone is a **roving voting booth**. When the organisers open a vote, students without phones vote through **you**.

Getting in

1. You have your **own 6-character access code** (from the organisers — it is NOT a student code).
2. Go to <https://yi-connect-app.vercel.app/yip/join>, type your code into the **Your Access Code** box, tap **Enter Parliament**.
3. Your screen shows **Vote Kiosk** with the message “**Waiting for the organizer to open a vote...**” — that’s correct. Keep it open.

When a vote opens

Your screen **wakes up automatically** — no refresh needed. Then, for each student who needs to vote through you:

1. **Find the student** — search the list by **serial number or name** and tap them.
2. **Hand them the phone** (or hold it where they can see) — they pick their choice.
3. Tap **Confirm**. Done — the screen returns to the list for the next student.

Rules of the booth: - One student at a time. The **student** picks — never pick for them.
- Don’t announce or discuss anyone’s choice. The ballot is secret. - If a student already voted on their own phone, the list will tell you — they can’t vote twice. - Made a mistake? Tell an organiser immediately — they can correct a vote (with a logged reason). Don’t try to fix it yourself.

When voting closes, your screen goes back to “**Waiting for the organizer to open a vote...**” — leave it open for the next vote.

Chat — students may message you

Students can send you a private message via “**Message a YUVA mentor**” in their chat. **You cannot reply in the app** — if a message needs an answer:

- Handle it in person if you can (you’ll usually be in the same hall), or
- Pass it to an organiser, who can reply or post an announcement.

Anything worrying in a message (bullying, a student in distress) → straight to an organiser.

Between votes

You're the floor team: help students log in (codes are on their badges; 0 vs O and 1 vs I are the usual typos), point them to the **Live Now** card when they ask "what's happening", and walk lost students to the help desk.

If your screen looks stuck

Fully **close and reopen** the app or browser tab, then log in again with your code. Still stuck? Use another volunteer's phone and tell the organisers.

Who to call: [FILL IN — organiser name + phone]
